

90° Butt-Weld Elbows

Tri Round Stainless Steel
MANUFACTURED THE BEST QUALITY FOR STEEL CORP.

- Sanitary Polished Short 90° Butt-Weld Elbows
- Available in 304 & 316L Stainless Steel

Create permanent sanitary 90° connection with Butt Weld Elbows

The Polished 90° Elbow from Sanitube™ is available in both 304 & 316L stainless steel alloys. Welds are required at both ends in order to accommodate a 90° change in angle between separate runs of sanitary tubing. Stainless steel material is resistant to corrosion and can withstand high temperatures. This product is manufactured in accordance with 3A Standards for sanitary process line applications including food & beverage industries.

Size (Tube OD)	Dimensions		
	A		R
